Dear Parent / Carer

RE: Design Technology

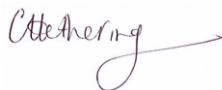

This year your child will undertake termly blocks in the different subject areas covered by the Design Technology curriculum. These are Technology and Textiles as well as Food Technology.

As part of the lesson's students will have the opportunity to make products using a range of materials and produce healthy food that they will be allowed to bring home. In order for us to do this and be successful we are asking that parents/carers contribute £15 for the year to cover some of the costs in Design Technology. This works out at less than 40p per week and will enable us to provide most of the ingredients in Food Technology and all of the materials in Technology, Textiles and Food.

With regards to Food Technology, the school will provide the staple ingredients and students will be required to bring along any fresh ingredients. For example, Pasta Salad – school will provide the pasta and mayonnaise, students will need to bring in their chosen salad items and meat, cheese or tuna.

Payments will need to be made as soon as possible via Parent Pay, if you are unsure of your login details please contact Holly in Finance on 01228 822636. If you envisage a problem with this payment please contact the Academy and leave me a message, I will get back to you as soon as possible.

Yours sincerely

Mrs Hetherington
Course Co-Ordinator of Technology
