Stepping up to sixth form.....

- Y11 to Y12 is the biggest step up of all, including to university
- Important to hit the ground running
- 100% attendance needed for success
- All deadlines to be met – home learning, coursework, applications
- Lots of leadership opportunities linked to character development.
- Taking a lead with supporting our extracurricular programme, clubs, mentoring and supporting younger years. You are an important part of Central Academy.
- Make the most of all the opportunities available.
- Timetabled and registered supervised study for a portion of study periods
- Making effective use of your time, treat studying like a full-time job.

The difference between GCSE and A Level study

Expectations:

- More content
- Conceptually more challenging
- Faster pace and intensity
- Greater depth of study
- More requirement for independent learning
- You have additional privileges, but you also have additional responsibilities.

Our advice:

- Start as you mean to go on!
- Recognise that Sixth Form is a bridge between school and the ‘real world’ – be responsible, make the most of extra opportunities, and enjoy a little bit more freedom.
- A Levels are not always easy, but a good work ethic will go a long way.
- Teachers: work in **partnership** with them
- Tutors and Sixth Form staff are here to help – utilise them.

Skills at KS5 Level

- Organisation
 - Files, planners, etc
- Time Management (30-40 hours a week of study)
 - Planning your week ahead, making effective use of supervised study & independent study
 - We recommend no more than 12 hours a week at a part-time job, and reducing hours during exam periods
- Prioritisation
 - Consider your deadlines, pinch-points, ask for advice
- Self-Starter Mentality
 - What can you do to extend your learning?
