

Homework

Summer Work

Research one of the following:

- chickenpox
- Influenza
- measles
- COVID-19
- Malaria

Produce a PPT to present back to the class in September. You may work in 2/3's.

You must answer the following questions in your PPT:

1. Role of authorities – e.g. governments, scientists, World Health Organisation
2. Classification – endemic, epidemic, pandemic
3. How is it spread? Direct / indirect contact
4. Type of infectious disease – viral, bacterial, fungal, protozoan?
5. Role of defence mechanisms? Including vaccinations, immune system
6. Any other relevant information.
