HALF TERM			

14 lessons left to work on component 1

How will I be assessed?

In both component 1 & 2 each AO will be marked out of 24 so in total the work will be marked out of 96 marks. So every part of your work is important!

Ability	Just	Adequately	Clearly	Convincingly
Exceptional	21	22	23	24
Highly	17	18	19	20
Consistent	13	14	15	16
Moderate	9	10	11	12
Some	5	6	7	8
Minimal	1	2	3	4

For students to keep up to date and to be prepared for their mock 1 exam they should have completed all outstanding work in their sketchbooks that was set over the summer holidays.

They should be concentrating and completing **further development**. This can be completed at home. **Further development allows you to reflect on what has been successful and in cases where you have not been able to fully experiment or refine ideas this is now the time to look back and either refine these ideas or develop them further.**

What will keep it exciting is using different **primary sources**, we DO NOT want to see you using the same images over and over again.

Different techniques, media, compositions, ideas.
